La esencia de la cerámica es por excelencia el Blanco. La gama de blancos cerámicos se caracteriza por su acabado en brillo o satinado mate. Su variedad de formatos proporciona grandes posibilidades arquitectónicas, con piezas especiales para soluciones técnicas.

White is considered the ceramic essence. The ceramic white ranges are characterized by their shiny or matt finish. Their wide range of sizes and special pieces offers endless architectonic possibilities as well as technical solutions.

This model has 4 different designs that are combined alternately, coming in the same box.

(2) Como pavimento recomendamos su uso únicamente en arquitectura residencial de tránsito ligero e intermitente. Su acabado metalizado requiere especial delicadeza en su colocación y limpieza.
We recommend the use as floor tile only for low transit residential areas. Its metallic finishing requires a careful laying and maintenance.

ANTIDESLIZANTE. Con el fin de dar una mayor seguridad en aquellas áreas transitables, cuyas condiciones de humedad y pendientes son mayores de lo habitual. Esta serie supera las pruebas de ensayo según la Norma UNE-ENV 12633:2003. Para mas información, consultar nuestro departamento técnico.

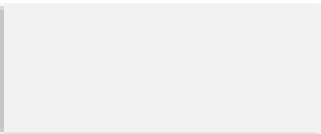

SLIP RESISTANCE. The aim here is to provide better safety in areas of pedestrian traffic, where the humidity conditions and slopes are greater than normal. This series rates higher than the test results recommended by Regulation UNE-ENV 12633:2003. For more information on this, contact our Technical Department.

(1) El acabado Mate de esta pieza corresponde a la base, no al elemento decorativo insertado en ella (cactus), que por motivos estéticos se ha realizado su contraste en Brillo.
The matt finish of the piece matches with the plain tile, not with the decorative insert (cactus). For aesthetic reasons, the shiny contrast of this part has been enhanced.

(2) Como pavimento recomendamos su uso únicamente en arquitectura residencial de tránsito ligero e intermitente. Su acabado metalizado requiere especial delicadeza en su colocación y limpieza.
We recommend the use as floor tile only for low transit residential areas. Its metallic finishing requires a careful laying and maintenance.

ANTIDESLIZANTE. Con el fin de dar una mayor seguridad en aquellas áreas transitables, cuyas condiciones de humedad y pendientes son mayores de lo habitual. Esta serie supera las pruebas de ensayo según la Norma UNE-ENV 12633:2003. Para mas información, consultar nuestro departamento técnico.

SLIP RESISTANCE. The aim here is to provide better safety in areas of pedestrian traffic, where the humidity conditions and slopes are greater than normal. This series rates higher than the test results recommended by Regulation UNE-ENV 12633:2003. For more information on this, contact our Technical Department.

ANTIDESLIZANTE. Con el fin de dar una mayor seguridad en aquellas áreas transitables, cuyas condiciones de humedad y pendientes son mayores de lo habitual. Esta serie supera las pruebas de ensayo según la Norma UNE-ENV 12633:2003. Para mas información, consultar nuestro departamento técnico.

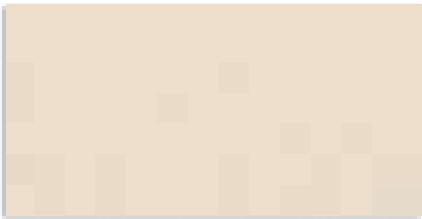

SLIP RESISTANCE. The aim here is to provide better safety in areas of pedestrian traffic, where the humidity conditions and slopes are greater than normal. This series rates higher than the test results recommended by Regulation UNE-ENV 12633:2003. For more information on this, contact our Technical Department.
